

# ACTIVITIES THAT COULD HAPPEN AT "THEY THINK IT'S ALL OVER" 2010

## **ABSEILING:**

This activity takes place on a disused railway viaduct licensed for such use by the Peak Park. The viaduct is approximately 28 metres high.

Abseiling will always involve an additional safety rope system.

All sessions will be supervised by an Instructor who holds the British Mountaineering Council's Single Pitch Supervisors Award and a valid first aid certificate.

## **THE PEAK CENTRE CLIMBING WALL:**

The Wall is a maximum of 7m high. Students will be top roped when climbing more than 1.5m above the floor. 2" thick crash mats are in use.

The Instructor in charge will either hold the British Mountaineering Council's Single Pitch Supervisors Award or be specially trained by the Peak Centre.

## **HILL WALKING:**

Groups walking on Kinder Scout will be supervised by an leader holding either the British Mountaineering Council Walking Group Leader Award or above.

Walking in other less demanding terrain will be supervised by leaders who are experienced in leading groups and who hold a valid first aid certificate.

## **ARCHERY**

Archery sessions are conducted by Grand National Archery Society qualified coaches and the strictest possible safety standards are applied.

## **ROCKETRY**

This uses "proper" small rocket motors in streamlined bodies controlled by a key protected firing button. This is not a hazardous activity, but we thought you ought to know nonetheless!

*A full Outdoor Activities policy and Health & Safety policy are available on request.*
